

Long Term Subject Map for Geography – Mainstream 2024-2025

	Autumn Term		Spring Term		Summer Term	
Class	A	B	A	B	A	B
Nursery	<p>Children will learn from visitors of various occupations Inc, a plumber, nurse, vet.</p> <p>Children will talk about differences and similarities between themselves and people in their local community.</p>	<p>Children will know that a globe represents the world.</p>	<p>Children will know the name of the town that our school is in.</p>	<p>Children will know about hot and cold places in our world.</p>	<p>Children will find out about the England flag.</p>	<p>Children will know where 'big school' is and other school's they may be going to are in the same town as nursery.</p>
Reception	<p>Children will know that the green on a globe is land and the blue is sea.</p> <p>Children will know that a globe shows different countries around the world.</p> <p>Children will identify typical weather in Autumn.</p>	<p>Children will know how people in different countries celebrate Christmas.</p> <p>Children will know that Bootle/Liverpool is in England.</p> <p>Children will know the name of the road that our school is on.</p>	<p>Children will explore aerial maps of our school and identify key features.</p> <p>Children will know that we do not have certain animals in England and will compare with other climates such as Africa.</p>	<p>Children will identify typical weather in Spring.</p> <p>Children will identify typical weather in Winter.</p>	<p>Children will know that we can only grow certain fruit/vegetables in England.</p>	<p>Children will identify similarities and differences between life in our town and life in Africa.</p> <p>Children will identify typical weather in Summer.</p>

One	What geographical features can we learn about our school grounds and our local area Netherton?		What are the geographical similarities and differences of the African city of Mombasa and the city of Liverpool?		What are the geographical similarities and differences of the African city of Mombasa and the city of Liverpool?	
Two	How do different areas of the world have differing weather conditions due to their location in relation to the equator and North and South poles?		How do different areas of the world have differing weather conditions due to their location in relation to the equator and North and South poles?			How do different areas of the world have differing weather conditions due to their location in relation to the equator and North and South poles?
Three			What are the human and physical aspects of canals and how have they been used to transport good in the past?	What are the human and physical aspects of canals and how have they been used to transport good in the past?		What are the human and physical aspects of canals and how have they been used to transport good in the past?
Four		How can changes in the environment, landscape features, weather patterns and climate change, effect people in different localities beyond the UK and in particular South America?		How can changes in the environment, landscape features, weather patterns and climate change, effect people in different localities beyond the UK and in particular South America?		How can changes in the environment, landscape features, weather patterns and climate change, effect people in different localities beyond the UK and in particular South America?

Five		What can we discover from geographical research into the physical changes over time to the Liverpool docks and how it has supported Liverpool trade over the years?	What geographical features can we learn about in different European Union countries and countries within North America?		What can we discover from geographical research into the physical changes over time to the Liverpool docks and how it has supported Liverpool trade over the years?	What geographical features can we learn about in different European Union countries and countries within North America?
Six		What can we learn about the South American country Brazil in terms of human and physical geography and how do these finding compare to the United Kingdom?		What can we learn about the South American country Brazil in terms of human and physical geography and how do these finding compare to the United Kingdom?		

[illegible]

Nine	What geographical features can we learn about our school grounds and our local area Netherton?		What are the geographical similarities and differences of the African city of Mombasa and the city of Liverpool?		What are the geographical similarities and differences of the African city of Mombasa and the city of Liverpool?	
Ten			What are the human and physical aspects of canals and how have they been used to transport good in the past?	What are the human and physical aspects of canals and how have they been used to transport good in the past?		What are the human and physical aspects of canals and how have they been used to transport good in the past?
Eleven Nursery	Children will learn from visitors of various occupations Inc. a plumber, nurse, vet. Children will talk about differences and similarities between themselves and people in their local community.	Children will know that a globe represents the world.	Children will know the name of the town that our school is in.	Children will know about hot and cold places in our world.	Children will find out about the England flag.	Children will know where 'big school' is and other school's they may be going to are in the same town as nursery.
